

Contact us Today!

CPR and/or First Aid Training with the Burnaby Firefighters can be customized to provide the best learning experience for your class size and to meet your scheduling needs.

We are professional, mobile and flexible.

Previous clients include students, small businesses, medium and large corporations and health care professionals.

Our students always look forward to the firefighters coming in to teach CPR as they are motivating, enthusiastic, and highly professional. They are passionate about the value and importance of CPR, which is evident in their instruction. They are friendly, accommodating and able to work well with a variety of learners, including ESL students.

Burnaby Mountain Secondary School

I would like to send a big thank-you out to the Burnaby Firefighters for providing our office with such a fantastic CPR recertification course. They came to our office and brought all the supplies which made it so easy for us. We have taken many CPR courses over the years and the Burnaby Firefighters were by far the best. They were professional and they were fun. And I would have no problem recommending them to anyone for their CPR courses.

Sherri Sutherland-Hanna

Treatment Coordinator, Guildford Orthodontics

The Burnaby Firefighters Charitable Society represents Burnaby Firefighters in their mission to raise money for community groups and non-profit organizations. The Society has no paid employees – firefighters volunteer their time to administer the business of the Society.

The Burnaby Firefighters Charitable Society supports Burnaby-based and Lower Mainland charities and contributes sizeable annual donations to more than 40 charitable and community organizations, including:

- Burnaby Hospital Foundation
- St. Michael's Hospice
- The Food Bank
- BC Special Olympics
- Burnaby Family Life
- BCPFFA Burn Fund
- Dry Grad ceremonies at all Burnaby Secondary Schools
- Burnaby Seniors Outreach Society
- Burnaby Neighbourhood House
- Variety Club
- Burnaby Christmas and Camping Bureau
- Pacific Assistance Dogs Society

The Society also runs a Nutritional Snack Program to help meet the needs of kids in Burnaby's schools where nutrition is a major concern.

As well, Burnaby Firefighters have been delivering CPR Training to Burnaby's high school students as part of their commitment to delivering vital programs to people throughout the community.

Customized CPR and First Aid Training with the professionals – the Burnaby Firefighters

With over 20 years teaching in the Burnaby School District, plus real life on-the-job experiences in emergency situations, the Burnaby Firefighters Charitable Society can provide customized, professional CPR and First Aid Training for your organization.

Professional, mobile and flexible, the Burnaby Firefighters Charitable Society CPR & First Aid Training Programs can provide your organization with highly skilled and experienced hands-on instruction so members of your organization can learn much needed emergency techniques that can save lives.

CPR Training

Cardiopulmonary Resuscitation (CPR) is a proven life saving skill that can double a person's chance of survival from cardiac arrest.

If CPR is started within four minutes of collapse and defibrillation is provided within 10 minutes, a person has a 40% chance of survival.

Death from cardiac arrest is not inevitable. If more people knew CPR, more lives could be saved.

The Burnaby Firefighters Charitable Society and Burnaby Firefighters can provide customized training at a competitive cost for members of your organization – on-site at your workplace or at a site convenient for you.

Using Canadian Red Cross training techniques, all of our training courses are taught by certified professionals and can be customized to meet your needs.

First Aid Training

The Burnaby Firefighters Charitable Society offers a wide variety of First Aid Training courses ranging from Emergency First Aid, Standard First Aid, Emergency Child Care First Aid and Marine Basic First Aid.

Courses can be customized to include both First Aid and CPR Training, with 4 to 20 hours of professional instruction provided by Burnaby Firefighters.

First Aid Training focuses on skills and techniques that can be effectively used in a number of emergency situations, including:

- Infant/Child/Adult Choking
- Breathing and Circulation Emergencies
- Bone, Muscle and Joint Injuries
- Emergency Wound Care
- Environmental Injuries
- Using an Automated External Defibrillator
